## For a Canada where everyone can live with dignity

In Canada, we support each other during tough times, whether through **Old Age Security** or the **Canada Child Benefit**, to help lift people out of poverty.

But today, rising costs for rent, groceries, and utilities are pushing more people into hardship. An unexpected expense, like car repairs, or a crisis like losing your job, a climate-caused disaster, or illness can make it impossible to make ends meet.

We need a **new safety net**. A **Basic Income Guarantee (BIG)** can help lift people out of poverty, reduce food insecurity, and provide the stability needed for people to thrive.

## Ask your candidate!

### When they come to your door, ask:

- What would happen if someone had to stop work due to illness or caregiving? How would they make ends meet?
- What's your plan to ensure British Columbians aren't one bad month away from losing everything?
- What would a new safety net look like for working families struggling with rising costs?

**A BIG can help provide stability in times of crisis and lift people out of poverty. Do you support BIG for BC and all of Canada?**
