

## Draft Message for e-Petition 6772

We developed **e-petition 6772** that is now up on [House of Commons website](#) in [English](#) and in [French](#). **Please sign and share with your networks.**

As part of our efforts to distribute this message far and wide, we drafted different messages for different media:

1. **A longer message that can be shared by email - helpful for readers who may not be familiar with basic income or the PEI project.**

**Subject:** Please sign and share: e-petition for a national Guaranteed Basic Income

I'm pleased to share that we have launched [e-petition 6772 on the Government of Canada website](#), in both [English](#) and in [French](#).

This petition calls for the **implementation of the [Prince Edward Island Guaranteed Basic Income Demonstration Project](#)**, (the PEI GBI) with the goal of expanding it across the country. This is a major step forward toward our shared vision of a **national GBI**.

A national GBI will establish an **income floor for all Canadians** and has the potential to reduce poverty from roughly 10% (and rising) to about 2%. While a GBI is not a silver bullet to fix every social or economic problem, it is an important tool that—when combined with robust public services—can deliver transformative results.

The PEI GBI is designed to **work alongside, not replace, other supports and services**. It must never undermine minimum wage laws, disability supports, labour rights, human rights, reconciliation efforts, or social services. **No one receiving a GBI benefit should ever be worse off than they were before its introduction.**

This petition is an opportunity to demonstrate broad, cross-sector support and show the strength of the GBI movement in Canada.

👉 Please take a moment to [sign the petition](#) and **share it widely through your networks.**

### **Support a National Guaranteed Basic Income**

We've launched [e-petition 6772 on the Government of Canada website](#) in [English](#) and in [French](#) calling for the implementation of the [Prince Edward Island Guaranteed Basic Income Demonstration Project](#) (PEI GBI), a critical first step toward a national GBI. A national GBI would set a secure income floor for all Canadians and reduce poverty from about 10% (and rising) to just 2%. It is designed to **work alongside—not replace—existing supports** such as minimum wage, disability programs, labour rights, reconciliation efforts, and other vital services. No one should ever be worse off under a GBI. Please take a moment to [sign the petition](#) and **share it**

**through your networks.** This is our chance to show broad support and move Canada closer to a fair, inclusive income system.
